Pneumatically operated 3/2-way seat valve ELEMENT for decentralized automation

- For mixing or distributing of mediums
- Decentralized automation with control head
- Flow optimized body in stainless steel
- Long service life and maintenance-free operation
- Control Head is connected w/o external tubing

Product variants described in the data sheet may differ from the product presentation and description.

Can be combined with

Type 8695
Control head for decentralised automation of ELEMENT process valves

Type 8691
Control head for decentralised automation of ELEMENT process valves

Type 8690
Pneumatic control unit for decentralised automation of process valves ELEMENT

Type 8697
Pneumatic control unit for decentralised automation of process valves ELEMENT

Type 8801
ELEMENT on/off valve systems with decentralised automation – overview

Type 8840
Modular process valve cluster – distributor and collector

Type description

The Bürkert 3/2-way seat valve, Type 2106, consists of a pneumatically operated ELEMENT actuator and a 3-way stainless steel valve body. Interchanging of pressure and service ports enables different fluidic circuit functions, such as the mixing or distributing of mediums. The flow-optimized valve body of Type 2106 allows excellent flow rates. The tried and tested self-adjusting gland secures a high level of tightness and thus ensures reliable operation over years. The design of the 3/2-way valve, Type 2106, offers all the advantages of a modern, decentralized automation: The directly connected control head and actuator provide a compact and smooth design, integrated pneumatic lines, protection class IP65/67, NEMA Type 4X, and a high chemical resistance. An optionally integrated fieldbus interface through to an explosion-proof automation units are further advantages of the 3-way shut-off valve. For the user, the compact Type 2106 is thus often an economical alternative to two single valves.

1. General technical data

Product properties	
Dimensions	Further information can be found in chapter "5. Dimensions" on page 8.
Material	
Body	Cast stainless steel 316L
Actuator	PPS
Seal	PTFE
Cover	Stainless steel 1.4561 (316Ti)
Spindle packing	PTFE seal with spring compensation
Nominal diameter (port connection)	DN 15…DN 50
Performance data	
Nominal pressure	PN 16 (body)
Pilot pressure	Max. 10 bar(g), actuator size 130 mm, 7 bar(g)
Medium data	
Medium	Steam, water, neutral gases, alcohols, oils, fuels, hydraulic fluids, salt solutions, alkalis, organic solvents, oxygen and fuel gases of families I, II and III in accordance with the Gas Appliances Regulation (EU) 2016/426
Medium temperature	-10…+185 °C
Viscosity	Max. 600 mm^2/s
Control medium	Air, neutral gases
Process/Port connection & communication	
Port connection	
Threaded connection	G (DIN ISO 228-1) NPT (ASME B1.20.1) (RC on request)
Pilot air port	Push-in connector (external Ø 6 mm or ¼") or thread G ⅛" (on request)
Approvals and conformities	
Further information can be found in chapter "3. Approvals and conformities" on page 5.	
Material certificate	2.2, 3.1
Environment and installation	
Ambient temperature	-10…+60 °C (integrated control unit) -10…+100 °C (push-in air ports)
Installation position	As required, preferably with actuator in upright position

DTS 1000257617 EN Version: K Status: RL (released | freigegeben | validé) printed: 20.03.2024

2. Control functions

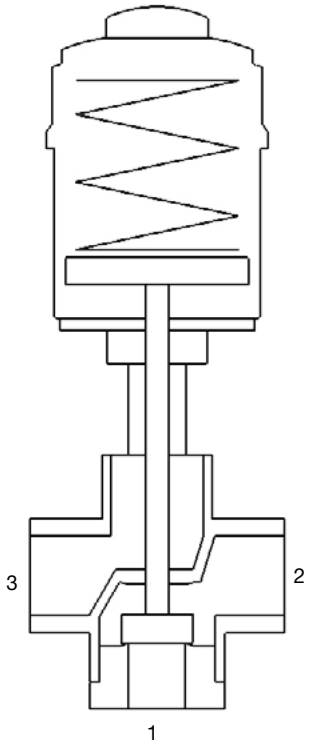
2.1. Control function

Symbol	Description
	**Control function C (CF C)** Pneumatically operated 3/2-way process valve When de-energised, pressure port 1 closed, service port 2 exhausted
	**Control function D (CF D)** Pneumatically operated 3/2-way process valve When de-energised, pressure port 3 connected to service port 2, exhaust port 1 closed
	**Control function E (CF E)** Pneumatically operated 3/2-way mixer valve When de-energised, pressure port 3 connected to service port 2, pressure port 1 closed
	**Control function F (CF F)** Pneumatically operated 3/2-way distributor valve When de-energised, pressure port 2 connected to service port 3, service port 1 closed

2.2. Pin assignment for fluidic circuit functions C, D, E and F

Note:

- Actuator with Control function A
- When de-energised port connection 1 is closed with spring



Fluidic circuit function	Connection		
	1	2	3
C	P	A	R
D	R	A	P
E	P1	A	P2
F	A	P	B

A, B Service ports
P, P1, P2 Pressure ports
R Exhaust port

DTS 1000257617 EN Version: K Status: RL (released | freigegeben | validé) printed: 20.03.2024

3. Approvals and conformities

3.1. General notes

- The approvals and conformities listed below must be stated when making enquiries. This is the only way to ensure that the product complies with all required specifications.
- Not all available versions can be supplied with the below mentioned approvals or conformities.

3.2. Conformity

In accordance with the Declaration of Conformity, the product is compliant with the EU Directives. This includes the following directives:

- Pressure Equipment Directive 2014/68/EU
- Machinery Directive 2006/42/EG

3.3. Standards

The applied standards which are used to demonstrate compliance with the EU Directives are listed in the EU-Type Examination Certificate and/or the EU Declaration of Conformity.

3.4. Explosion protection

Approval	Description
	Optional: Explosion protection As a category 2 device suitable for zone 1/21 and zone 2/22 (optional). **ATEX:** EPS 18 ATEX 2 008 X II 2G Ex h IIC T4…T2 Gb II 2D Ex h IIIC T135 °C…T300 °C Db **IECEx:** IECEx EPS 18.0007 X Ex h IIC T4…T2 Gb Ex h IIIC T135 °C…T300 °C Db

Temperature class	T2	T3	T4
Permissible surface temperature	+300 °C	+200 °C	+135 °C
Ambient temperature Restrictions from the device	-40…+80 °C	-40…+80 °C	-40…+80 °C
Maximum medium temperature Restrictions from the device	+230 °C	+185 °C	+125 °C

3.5. Drinking water

Conformity	Description
H_2O	**Suitable for use in drinking water applications** The materials comply with the assessment principles (UBA) for materials in contact with drinking water (TrinkwasserV). **Stainless steel body** PF39: Suitable for products with medium temperature up to 85 °C (hot water)

DTS 1000257617 EN Version: K Status: RL (released | freigegeben | validé) printed: 20.03.2024

3.6. Foods and beverages/Hygiene

Conformity	Description
FDA	**FDA – Code of Federal Regulations (valid for the variable code PL02)** All wetted materials are compliant with the Code of Federal Regulations published by the FDA (Food and Drug Administration, USA) according to the manufacturer‘s declaration.
	**EC Regulation 1935/2004 of the European Parliament and of the Council (valid for the variable code PL01, PL02)** All wetted materials are compliant with EC Regulation 1935/2004/EC according to the manufacturer‘s declaration.

3.7. Others

Oxygen

Conformity	Description
O_2	**Optional: Suitability for oxygen (valid for the variable code NL02)** The products are suitable for use with gaseous oxygen, according to the manufacturer‘s declaration.

Fuel gases

Conformity	Description
CE	**Fuel gases (valid for the variable code PO19, PO20)** The products comply with: • Regulation (EU) 2016/426 – Appliances burning gaseous fuels and • DVGW DIN EN 161 (Automatic shut-off valves for gas burners and gas appliances) and • DIN EN 16678, Class A or Class D (Safety and control devices for gas burners and gas burning appliances – Automatic shut-off valves for operating pressure of above 500 kPa up to and including 6 300 kPa)

DTS 1000257617 EN Version: K Status: RL (released | freigegeben | validé) printed: 20.03.2024

7. Product accessories

Electrical position indicator

Control head

Type 8691 ▶ Actuator size Ø 70 mm

Type 8695 ▶ Actuator size Ø 50 mm

The control heads Type 8691 and Type 8695 are optimised for integrated mounting on process valves of the 21XX series. The valve position is detected without contact via an analogue sensor element. The sensor element automatically detects and stores the valve end positions during commissioning using the teach function. The integrated pilot valve controls single-acting or double-acting actuators. The valve switching status is indicated by coloured high-performance LEDs.

Features

- Status indication via coloured high-performance LEDs
- Wear-free inductive position sensor
- Pilot valve with manual override
- Teach function for automatic recognition of valve end positions
- Hygienic stainless steel design
- Easy-to-clean, chemically resistant housing according to IP65/67, 4X rating
- AS-Interface, IO-Link, Bürkert system bus (büS)

Customer benefits

- Simple and safe commissioning using the teach function
- Easy process monitoring and fault detection through visible coloured high-performance LEDs
- High degree of system availability due to increased actuator service life by means of spring chamber ventilation
- Minimal space requirement in plant piping for more flexibility in plant design

Pneumatic control unit/position feedback

Type 8690 ▶ Actuator size Ø 70 mm

Type 8697 ▶ Actuator size Ø 50 mm

The pneumatic control units Type 8690 and 8697 are optimised for integrated mounting on process valves of the 21XX series. Mechanical or inductive limit switches detect the valve position. The integrated pilot valve controls single-acting or double-acting (Type 8690) actuators.

Features

- Optical position indicator
- Mechanical or inductive proximity switches for end position detection
- Pilot valve with manual override
- Compact design
- Easy-to-clean, chemically resistant housing according to IP65/67, 4X rating
- Optionally intrinsically safe design according to ATEX/IECEx

Customer benefits

- Simple and safe commissioning using the teach function (Type 8697)
- Signal reliability due to the automatic adjustment of the limit switches
- Minimal space requirement in plant piping for more flexibility in plant design

8. Networking and combination with other Bürkert products

The **seat valve Type 2106** can be combined with the **position feedback Type 8690/8697** and the **control head Type 8691/8695** to **valve system On/Off ELEMENT Type 8801-GE**.

Note:

- For the configuration of further valve systems use the **Product Enquiry Form** (see **"9.3. Bürkert Product Enquiry Form" on page 12**).
- You order two components and receive a completely assembled and tested valve.

Example with welded connection

Seat valve			
			
Type 2106			
Control head		**Position feedback**
